THURSDAY, OCTOBER 17, 1901.

Cane grindings, sugar boilings, candy pullings will soon be in order.

It is said that a new daily newspaper is soon to be started in Gainesville.

There is no doubt about it—Madison is one of the best cotton markets in the country.

The Levy Times-Democrat has placed Hon. T. J. Wills, of Starke, in nomination for Congress from the third district.

In a day's journey among the smaller towns of our State we venture the assertion that a liver town than Madison will not be found.

The latest reports in yachting circles is that Emperor William, of Germany, will be the next contestant for the America's cup and that his boat will be built in this country.

Seth Low evidently enjoys being chewed by tigers. For the second time he is the anti-Tammany candidate for mayor of New York. Maybe the "braves" will get his scalp this time for good.

Madison county suffered last week by the murders committed within her borders. It is unfortunate indeed, but then we may console ourselves with the knowledge that these things happen elsewhere as well.

It begins to look like Madison county will not be represented at the State Fair next month. This is a matter of regret and we think that our people will discover it when too late. Since there will be no county exhibit can't we have an exhibit made by the farmers?

Sheriff Armstrong deserves the eulogiums and thanks of all good citizens for his prompt action of Thursday night in removing the negro beyond the reach of the mob which sought his life. We are truly glad that a lynching was saved our fair county that night.

The physicians who attended President McKinley after he was shot and up to the time of his death have presented their bills for services amounting to \$100,000. The gentlemen are not at all modest in their demands and Congress will doubtless appropriate the full amount.

An echo of the Cudahy kidnapping case of several months ago comes to us in the news that Pat Crowe, who is charged with the kidnapping of the boy, and who has been a fugitive for months, has offered to surrender and stand trial if the reward of \$50,000 offered by the father of the boy is withdrawn. It is said that Mr. Cudahy will withdraw the reward, hence we may soon expect to read the scenes and evidence of another sensational law case.

THE RIGHT SPIRIT.

In a recent editorial in this paper anent our projected Street Fair and Carnival, we gave expression to the following sentiment:

"There need be no dissension—there must not be discord, but as one we must all put our shoulders to the wheel and with a long pull, a strong pull and a pull altogether give our town such impetus in the onward march that there may be no backsliding."

Commenting thereon Bro McCreary, of the Gainesville Sun, says:

"The sentiment expressed above breathes the right spirit. There is perhaps not a more public spirited or enterprising town in the State than Madison, and it has been made so by harmonious action on the part of its citizens. They have laid aside their prejudice and have mutually agreed to make a powerful effort to promote and advance not only the material interests of the town in which they live, but of the country adjacent. They have experienced the damaging effects resulting from dissensions, factional disturbances, and a display of bad temper and bad blood, and from the experience of the past they have been taught a lesson which will guide them right in dealing with future relations. They are now on the right track and we predict that the future of Madison will be one of uninterrupted prosperity. We are gratified to know that the good people of Madison are moving in the right direction, and wish that the relations of all towns in Florida were on a similar satisfactory basis. United action is absolutely essential to the growth and prosperity of cities and towns. A display of bitterness, hatred and malice can result in nothing but injury, while an exercise of reason, justice and right will silence those who would obstruct the wheels of progress. Dissensions tear down that which harmony builds up. It is the height of nonsense for a community of people to wrangle among themselves. There never was a truer saying than that 'a house divided against itself cannot stand.' Those who offer encouragement to dissensions, wrangling and factional disturbances are the worst enemies of the good people among whom they live."

EVERYWHERE THE SAME STORY.

Lake City is constructing more houses than at any time in its history, and, what is better, every store and every dwelling if not occupied is spoken for. The same story reaches us from Live Oak, Gainesville and Palatka. All of South Florida is on an unprecedented, substantial and apparently permanent boom. A circus and menagerie coming to town and pitching its tents is not more bustling and busy than the city of Jacksonville. The work of rebuilding is going on day and night under electric arc lights. If Aladdin had lived in this day and visited Jacksonville he would have thrown away his lamp in utter mortification and disgust.—Ocala Banner.

Madison is not enjoying any building boom to speak of but in general "git up and git" she is keeping well in the front of the procession. Not a vacant store or house in our town either, and more's the pity, for if any were vacant it would be an easy matter to fill them.

In a report to the Attorney-General District Attorney Stripling pours hot shot into the Tampa strikers, claiming they have no justification whatever for their actions.

Admiral Schley reached the age limit on Wednesday of last week and was retired from the active service in the Navy of the United States. What a pity that the verdict of vindication could not have been rendered by the court of inquiry before the old gentleman stepped down and out.

And now it is the Hon. Chauncey Depew who is to take unto himself a young bride. The lady is a noted beauty, native of America but for some years resident of Europe. What is the matter with the girls that they seem to prefer old men for husbands. The boys had better put on age rapidly if they would marry "famous beauties."

The Pan-American Exposition will close October 31st. Those who have not yet visited this marvelous wonderland are reminded that the time is growing short.

In order to permit every citizen in the territory traversed by its lines, to take this trip, the Seaboard Air Line Railway has placed in effect a rate of practically one fare for the round trip to Buffalo and return, tickets on sale September 3rd to October 20th, inclusive; tickets good to return within 20 days from date of sale. This liberal concession should meet with a hearty response on the part of the traveling public, and many will doubtless avail themselves of the opportunity of attending this last and largest of National Expositions.
